REPORT OF THE SUPERINTENDENT
OF SCHOOLS

January, 1943.

To the Honorable School Committee, Board of Selectmen,
and Citizens of North Kennebunkport:

LADIES AND GENTLEMEN!

This is my eighteenth annual report of schools and I wish at the outset to state that your town and pupils have been extremely fortunate in being able to have all schools open and operating with efficient and well qualified teachers. Many rural towns have had great difficulty in maintaining schools because of the shortage of teachers.

One of your teachers has been on leave of absence because of sickness of her husband. Her place has been ably filled by Margaret Pearson, one of your own number. It is likely that if one of your teachers should accept a more lucrative position, you would be unable to fill her place at any price.

Your appropriations have generous balances in the common school and high school accounts. This is due to the equalization fund and has worked out greatly to the advantages of education in North Kennebunkport.

The advance in teachers' salaries and the extra in textbook and supply accounts has been taken care of from this equalization fund.

I desire at this time to say that educationally North Kennebunkport is better off than any town within my knowledge and mostly for the reason that children have had the textbooks which are the tools of education. You cannot impart the culture of our age without tools. I have heard there were those who thought that one book on a subject was sufficient. May I go on record as saying, with all the emphasis at my command, that if children are to arrive at that stage of maturity to deal adequately with the complexity of the prob-

lems of our day, their schools and teachers must have the tools of education, textbooks, and other aids in abundance. The problems of this age cannot be resolved by half-educated, or poorly-educated citizens. The education of the past is not adequate for the demands of the future.

The transportation of school pupils in North Kennebunkport has gone forward this year in a satisfactory manner. The Federal Government has much more to say about such matters than in the immediate past. Regulations of Transportation of Public School pupils has rulings coming through which transcend State requirements or in some cases countermand them.

Your enrollment last fall was as follows: Irving School, 18 pupils; Iron Bridge, 27 pupils; North Chapel, 32 pupils; Durell, 37 pupils; Burnham Primary, 24 pupils; and Burnham Grammar, 45 pupils; these numbers vary some, but in the main, reveal the teacher load at the respective schools.

Last spring it seemed that a new school might be made necessary by the congestion at Durell, Burnham, and Iron Bridge, but even if the present arrangements could not have sufficed, it is doubtful if teacher help could have been procured to man another school. The congestion has not materially changed and will probably remain stationary until the opening of school in September, at which time you may be under obligation of caring for an overflow of pupils in new quarters. However, much depends on industry and labor conditions beyond our control or vision.

Your teachers have played a magnificent role in assisting expertly in the draft, rationing, bond and stamp sales, and in the scrap drive. All of these activities add up to a fine and invaluable contribution to the cause of our United Nations' Effort to win the war. It is with deep and abiding appreciation that I review the teachers' part in the great victory effort in which they have loyally done their part.

Very sincerely,

HARRY C. HULL.

REPORT OF PUBLIC HEALTH NURSE

To the Citizens of the Town of North Kennebunkport:

I hereby submit my annual report as public health nurse for the year beginning January 1, 1942, and ending December 31, 1942.

Each school was visited twice during the year to complete the regular health inspection. Other visits were made to some schools to make special inspections for evidence of pediculosis or of skin diseases. Three trips were made to schools which were found closed, some because of illness of the teacher and others because of fuel oil rationing day.

More than the usual number of home visits were made this year particularly because of children found with serious vision defects. Efforts were made to aid in securing correction of these defects. Arrangements were made with the Red Cross for financial assistance in one case. Time was spent in the home and at the Webber Hospital, Biddeford, making arrangements for one child to have an operation for tonsil and adenoids removal.

The following is a report of the health inspections completed in all schools for the year 1942:

Total pupils inspected,	177
Pupils found with defects,	71

Defects found:

Vision,	14
Teeth,	44
Unclean teeth,	20
Throat,	13
Speech,	3
Evidence of pediculosis,	11

Corrections made during year:

Vision,	3
Teeth,	34
Throat,	5

The importance of good health has never been greater. May I urge that we work for two things, correction of more of those defects that may hamper the progress of the child in school, and provision of preventive measures to protect them against contagious diseases.

Respectfully submitted,

YORK COUNTY HEALTH SERVICE,

By: OLIVE TWICHELL, R. N.,

Public Health Nurse.
