COLLECTION OF DOG TAXES

FOR 1958

For the year 1958, taxes were received for 76 males, 10 females 35 spayed females, and four kennel licenses covering 14 dogs, making a total of 135 in all. The number seems small for this town as I know there must be many more dogs to be licensed. According to the law, all taxes are payable April 1st. If your dog is 6 months or older by April 1st, please obtain your license and tag at the clerk's office. Any dog owner must expect the clerk to act according to laws set by the State. A list of all dog owners who have complied with the law and paid the necessary tax will be listed in the 1959 Town Report. Others who have not, must expect consequences to the full extent of the law. Expenses of destroying any dog must be paid by the owner.

Annual Report of Public Health Nurse

ARUNDEL — 1958

Health is something that all men desire and there is no limited supply. Health habits, good or bad are established during childhood, the formative years of life.

Since good prenatal care is so important, home visits have been made to expectant mothers to encourage them to receive medical supervision early in their pregnancy. Good nutrition plays an important role in prevention of birth defects.

The child health conference is that part of a public health program which offers health supervision for well young children. Parents who attend our child health conferences seem anxious to give their children every opportunity to develop physically, emotionally, and socially regardless of their economic status. During the year, 76 infants and preschool children attended the six conferences held from May through October on the second Tuesday of the month from three to five p.m. Sixteen were examined by the physician, 27 received diphtheria, pertussis, and tetanus immunization, 48 received polio vaccine and seven were vaccinated against smallpox.

In order to give an opportunity for adults and school age children to receive their polio shots, these were offered following the child health conferences in May and June. I will include the attendance at these clinics.

May—school children 22, adults 23

June—school children 24, adults 19

ANNUAL REPORT

School Health Service

Periodic visits were made to the schools during the year to confer with teachers on health problems.

Audiometer tests have been done on all first grade pupils and any other child referred by the teacher. Hearing defects were brought to the attention of the parents.

The greatest need for protection against disease is during the preschool years. Because of the opportunity offered at the child health conference for this protection, it has not been necessary to have special clinics for school age children. Children who were due for their 3rd polio vaccination were given an opportunity to have them following the child health conferences in May and June. Free polio vaccine is still provided in the child health conferences for preschool children. This is very important as over 50 of all paralytic cases of polio occurred in children under five years of age in 1958.

It would be advisable to resume physical examinations of school children in selected grades when facilities are made available. The aim of this examination is to discover the health needs of the child and to motivate parents to have necessary follow-up care. Parents have the primary responsibility for the health of their children, but the nurse can guide them by informing them of community resources available if they are not under supervision of a private physician.

One of the objectives of the nursing service is to insure good nursing care to the sick. The normal routine of family life is found to be more or less upset during illness.

With help and guidance from the public health nurse, the family is able to make the necessary adjustments for good nursing care and help the patient towards a quick recovery.

I would like to take this opportunity to thank everyone who has helped in any way to make the program a success. Much remains to be done but with your continued support, I hope the program will expand in 1959.

Respectfully submitted,

FLORENCE G. POIRIER, R.N.

TOWN OF ARUNDEL

We anticipate that the school year 1958-59 will be the last year in which the rural school buildings will be occupied. It is not necessary to review the limitations of the present schools.

I wish to add, however, that with all the shortcomings of the buildings, we have been well equipped as to supplies and books, and that we have a corps of teachers who have diligently carried on the work of the schools under difficult conditions.

At the moment, it appears that the new consolidated school is to become a reality. The Town has authorized the construction. The School Committee has approved the plans, as required by law and the necessary approval by the State Department of Education is pending. The Selectmen have arranged for the financing. The building should be ready for occupancy in the Fall of 1959. The Building Committee has given many hours of work to this project, which at best involves a great deal of study, investigation and planning.

The proposed six room building has been extensively discussed, so I believe, that all citizens are familiar with the details of appearance, location and facilities.

To finance a building involves some sacrifice on the part of the citizens, but I think all are convinced that in this day and generation, adequate educational facilities must be provided for the children of the Town.

Respectfully submitted,

PAUL LARRABEE

Superintendent

Auditor's Report

January 27, 1959

Board of Selectmen
Town of Arundel
Arundel, Maine

Gentlemen,

In accordance with your request, we have audited the records of the Town of Arundel, for the municipal year ended December 31, 1958, as required by Chapter 91, Section 142 of the Revised Statutes of 1954.

The examination was made in accordance with generally accepted auditing standards, and included all procedures which were considered necessary in the circumstances.

The results of the audit are disclosed in the accompanying exhibits and schedules and present fairly the financial position of the Town of Arundel and the results of its operations for the municipal year ended December 31, 1958.

Respectfully submitted,

L. EVERETT OUTHOUSE

ANNUAL REPORT

COMMENTS

CASH

The cash balances, as noted in the balance sheet, were reconciled with the bank statements and a written confirmation of the balances was made.

UNCOLLECTED TAXES

A percentage of the uncollected taxes, as shown on the collector's records at December 31, 1958, and unpaid tax liens, were verified by written confirmation with the taxpayer.

SPECIAL FUNDS

Cemetery Trust Funds and the Special School Building Fund were found to be on deposit in properly designated savings accounts and were verified by written confirmation with the several bank depositories.

DEFERRED REVENUES

The deferred revenue accounts were administered as directed by vote at the annual town meeting.

GENERAL

The procedure for keeping the municipal records of the town officers was examined, and found to be adequate, and in compliance with the General Laws of the State of Maine, as approved by the State Department of Audit.

SCOPE OF AUDIT

This audit was made as required by the State Department of Audit, Chapter 405, Section 26, of the General Laws of 1957.

Records were checked to determine the accuracy of recording cash transactions. The system of internal control was reviewed as to the handling of cash and other matters of financial concern. External verifications, on a test basis, were utilized to determine the correctness of recorded assets and liabilities.

Receipts, vouchers and cancelled checks were examined, for authenticity, for a selected period. Bond and insurance coverages were examined. Excise tax collections for a selected period were verified with copies of the receipts retained by the Tax Collector.
